

SYNCHRONOUS BELT DRIVE SYSTEM

POWERGRIP® TIMING BELT TENSIONERS

BETTER THAN THE ORIGINAL

With Gates PowerGrip® tensioners, you'll get a fit and performance that is equal to the original, because they are the original. In addition, Gates engineers analyse the failure modes of OE designs and make any necessary adjustments to improve performance so that they become even better than the original.

AND THERE'S EVEN MORE

Gates tensioner technology includes many patented features and our OE quality tensioners give you and your customers not only the right fit and performance but also:

- ▶ Reduced warranty and less costly comebacks.
- ▶ Increased customer satisfaction – better performance and longer life.
- ▶ More sales opportunities – increased coverage and availability.

THE KEY TO SUCCESSFUL REPLACEMENT

OPTIMUM CAR PARC COVERAGE

Gates is one of the world's leading manufacturers and suppliers of both belts and metals for the SBDS drive. In total, the Gates PowerGrip® timing belt tensioner range ensures high coverage of the car parc regardless whether it concerns old or new, petrol, diesel, European, Asian or American applications.

More information on applications and sizes is found online in Gates web catalogue Gatesautocat.com

We are OE supplier of tensioners to Volkswagen, Audi, Mercedes, BMW, Opel, Ford, Fiat, Alfa Romeo, Volvo, Citroën, Renault, Peugeot, Skoda, Nissan, Toyota, Mazda, KIA, Hyundai and many more.

The best car manufacturers in the automotive industry use our OE metals and belts. Isn't it time you did too?
