

Hose Information Sheet

GATES CURVED RADIATOR HOSE

PROD TYPE 4275

Product description : Black, textile reinforced curved radiator hose

Construction :

- Tube : Smooth and clean inner tube of black EPDM Rubber
- Reinforcement : 1 aramid yarn applied by knitting
- Cover : smooth, black outer cover of black EPDM rubber

The hoses are designed for radiator applications at continuous temperatures from -40°C to +100°C. Occasional temperatures as high as +110°C are allowed.

Product Data :

Hoses are available in many different shapes and sizes. The minimum burst pressure for hoses with ID ≤ 40mm is 1.2 MPa. For ID > 40mm this is 1.0 MPa.

Product Quality :

Test methods on materials ASTM D 380, D 395, D 412, D 471, D 573, D 624, D 2240 or otherwise specified. Hose meets the requirements of SAE 20R4, class D2, and DIN 73411, class A (except for tolerances).
